

## Introduction

The iVvy- MyGuestlist integration is designed to allow users of the iVvy Venue Software to synchronise their iVvy contacts and bookings with MyGuestlist on a daily basis.

## How it works

## Key features

- Users can sync their contacts, subscription groups and subscription status' for email and SMS from iVvy into MyGuestlist.
- Sync all prospective, tentative and confirmed bookings from the iVvy function diary into MyGuestlist.
- Sync all newly created contacts and bookings, as well as any modifications that have been made to contacts and bookings since the previous sync.
